

Human Capital Management Platform

Redefining + Simplifying HCM

SyncHR's patented, cloud-based technology is redefining and simplifying HCM for mid-market companies (500-5000 employees). It provides critical advantages not found in traditional systems by automating HR, benefits, and payroll processes, balancing the distribution of work, and centralizing data to ensure accuracy at all times. The breadth and depth of automation SyncHR delivers is unparalleled and ushers in new levels of innovation not seen before. The seamless SyncHR Oracle+NetSuite integration enables staff, managers, and administrators to manage HR, benefits & payroll from one platform.

Enterprise-Class HCM Platform for Finance

Lower total cost of ownership. Increased data accuracy. Better business intelligence.

Trust in the accuracy of your data since it is easily updated and accessible in real-time via a single core system of record.

Lower compliance risk (e.g. FLSA) through unparalleled automation of complex calculations – update your data and SyncHR handles all of the calculations.

Increase workforce visibility and measurement by tracking and reporting true 'budget to actual' headcount.

Gain time savings, improve accuracy and insight into your labor costs through our self-balanced sub-ledger, summarization, and seamless integration to your general ledger.

Experience a truly simplified payroll process within one platform, via next generation automation, and retroactive calculations and processing.

Make well-informed business decisions with enhanced intelligence from robust reporting and analytics—point-in-time reporting, ad hoc, standard, custom.

Achieve greater financial transparency with easily accessible, comprehensive payroll details and summaries.

Achieve lower total cost of ownership (TCO) with significant time savings, greater efficiency, and uncompromised data integrity from unparalleled automation and patented, cloud-based technology.
